

## HOW TO INSTALL CALPITO ROAD COURTESY LIGHTS

**Step 1** – Position device by laying down face up

**Step 2** – Select the size of hooks that fit the size of your vehicle rear view mirror

**Step 3** – Insert the 2 hooks separately onto the hole fittings of the device and screw both on each side

**Step 4** – Take the stopper, insert one hook to one end of the stopper and screw it

**Step 5** – Hold the device with two hands, bring up device onto one side of the rear view mirror and secure the hook with a screw, followed by inserting the other hook to the other end of the stopper and screw it. Hold the device tightly against the rearview mirror until you hear the gear sound stop. Then tighten all the screws until the device is totally secured.

**Step 6** – The type C plug is located at the back of the device. Plug the Type C cable on to it then connect the cigarette lighter adopter that is included. And secure the cable by the provided pins.
